CLIENT BRIEF / E-COMMERCE UX/UI

# ELARA

Women's Fashion Bags

| | |
|---|---|
| **PROJECT**<br>Full-flow e-commerce website | **INDUSTRY**<br>Fashion / Accessories |
| **PRIMARY MARKET**<br>Urban, fashion-conscious women | **DESIGN DIRECTION**<br>Premium · Minimal · Editorial |

**A premium digital storefront designed around discovery, product confidence, and a frictionless path to purchase.**

Prepared as a realistic client-side brief for a UX/UI design project.

# Project Overview

ELARA is a modern women's fashion brand focused on stylish, premium-looking bags designed for everyday life. The project is to create a complete e-commerce experience—not only a visually polished homepage, but a connected customer journey from discovery through checkout and post-purchase.

### Core customer journey

**Discover → Explore → Evaluate → Add to Bag → Checkout → Order Confirmation → Track Order**

| BUSINESS NEED | DESIGN RESPONSE |
|---|---|
| Build a premium fashion presence | Editorial visual language, strong imagery, refined typography and generous spacing. |
| Help shoppers discover products | Clear categories, search, filters, collections and curated product sections. |
| Increase purchase confidence | Detailed product information, reviews, materials, dimensions, shipping and returns. |
| Reduce checkout friction | Simple cart and step-by-step checkout with clear order summary and feedback. |

# Brand & Audience

## Brand positioning

ELARA should feel fashionable, premium and contemporary without becoming overly formal or inaccessible. The brand should communicate quality and confidence through restraint rather than visual excess.

## Primary customer

| | |
|---|---|
| **Age** | 22–40 |
| **Lifestyle** | Working professionals, university students and urban fashion-conscious shoppers |
| **Behavior** | Comfortable with online shopping; compares products before purchasing |
| **Motivation** | Wants a bag that fits personal style, work, social life and everyday routines |
| **Questions before purchase** | Quality? Materials? Size? Styling? Value? Delivery? Returns? |

## Product range

- Handbags
- Tote Bags
- Shoulder Bags
- Crossbody Bags
- Mini Bags
- Travel / Work Bags
- Premium leather bags

# Homepage Requirements

| | | |
|---|---|---|
| **01** | **Header** | Logo, New Arrivals, Bags, Collections, Best Sellers, About, Search, Account, Wishlist and Cart. |
| **02** | **Hero** | Strong fashion image, clear headline, supporting copy and a primary CTA such as “Shop New Collection.” |
| **03** | **New Arrivals** | Latest products with image, name, price, color, wishlist and quick add / quick view. |
| **04** | **Shop by Category** | Tote, Shoulder, Crossbody, Mini, Work and other core categories. |
| **05** | **Featured Collection** | Lifestyle-led collection storytelling, e.g. “The Everyday Collection.” |
| **06** | **Best Sellers** | Popular products supported by bestseller labels, ratings and review counts. |
| **07** | **Brand Story** | Craftsmanship, materials and design philosophy presented with strong visual storytelling. |
| **08** | **Social Proof** | Customer reviews and lifestyle imagery. |
| **09** | **Editorial / Lifestyle** | Show how products fit into real routines: work, dinner, weekend and travel. |
| **10** | **Newsletter** | “A little luxury in your inbox.” with email capture and subscribe CTA. |
| **11** | **Footer** | Shop, categories, customer service, about, shipping, returns, privacy, terms and social links. |

# Shopping & Product Experience

## Product Listing Page

The PLP should make browsing fast and understandable. Users should be able to narrow choices without losing their place.

- Filters: Category, Price, Color, Material, Size, Availability
- Sorting: Featured, Newest, Price Low → High, Price High → Low, Best Selling
- Product cards: image, name, price, color, wishlist, quick add / quick view, and useful labels

## Product Detail Page

This is the primary decision-making screen. Product imagery and practical information should work together to answer the shopper’s questions before they buy.

| | |
|---|---|
| **Above the fold** | Large product gallery; product name; rating; price; description; color; size; quantity; Add to Bag; Buy Now; Wishlist. |
| **Product details** | Description, materials, dimensions, interior details, care instructions, shipping and returns. |
| **Image system** | Front, back, side, interior, close-up and lifestyle imagery. |
| **Reviews** | Overall rating plus individual reviews; photo reviews can be included where available. |

# Cart, Checkout & Account

| | |
|---|---|
| **Cart** | Product, quantity, price, remove, save for later, subtotal, shipping, total and “Proceed to Checkout.” |
| **Checkout — Step 1** | Contact information |
| **Checkout — Step 2** | Shipping address |
| **Checkout — Step 3** | Delivery method |
| **Checkout — Step 4** | Payment |
| **Checkout — Step 5** | Review order and place order |
| **Confirmation** | Thank-you state, order number, products, total, delivery estimate, shipping address and track-order CTA. |
| **Account** | Profile, orders, order tracking, wishlist, saved addresses, payment methods and logout. |
| **Wishlist** | Saved products with a clear path to Add to Bag. |
| **Search** | Relevant results for queries such as “black leather bag,” plus recent searches, popular searches and suggested products. |

# Visual Direction & UX Principles

## Visual direction

- Premium, minimal and editorial
- Fashion-focused imagery with generous whitespace
- Refined typography and strong hierarchy
- Neutral, warm and sophisticated color direction
- Subtle interactions and restrained motion
- Original ELARA identity inspired by the category—not a recreation of any reference site

## What to avoid

- Over-designed UI or excessive visual effects
- Too many gradients or unnecessary glassmorphism
- Excessive animation
- Too many colors competing for attention
- Complicated navigation
- Long blocks of unnecessary copy
- Generic, template-like shopping experience

| UX PRIORITIES |
| --- |
| 1. Product discovery |
| 2. Product understanding |
| 3. Trust and purchase confidence |
| 4. Easy purchasing |
| 5. Premium brand perception |
| 6. Mobile usability |

# Responsive Design & Deliverables

## Responsive breakpoints

| | | |
|---|---|---|
| **DESKTOP** | 1440px | Full navigation, editorial layouts, multi-column product presentation. |
| **TABLET** | 768px | Rebalanced grids, condensed navigation and touch-friendly controls. |
| **MOBILE** | 390px | Mobile-first hierarchy, simplified navigation, touch targets and streamlined checkout. |

## UX deliverables

- User flow
- Information architecture
- Sitemap
- Key user journeys
- Low-fidelity wireframes

## UI deliverables

- Design system
- Typography & color system
- Reusable components
- Desktop UI
- Mobile UI
- Responsive states and key interaction states

## Primary screens

- Homepage
- Product Listing
- Product Detail
- Search
- Wishlist
- Cart
- Checkout
- Order Confirmation
- Account
- Order Tracking
- About
- Contact

08 / CLIENT REQUIREMENTS

# Client Expectations

The designer is expected to think beyond visual styling. Before high-fidelity UI, the experience should be structured around the customer's goals, questions, friction points and decision-making process.

**CLIENT NOTE**

> **“I don't only want a beautiful website. I want a shopping experience that feels premium, answers customer questions clearly, and makes the path to purchase feel natural.”**

### Suggested project process

- 1. Discovery & requirements
- 2. Sitemap + user flow
- 3. Low-fi wireframes
- 4. Design system
- 5. High-fi desktop
- 6. Responsive mobile
- 7. Prototype & interaction states
- 8. UX review & refinement

END OF BRIEF

# ELARA — Designed for Every Chapter.
